considered to be material (37 CFR 1.97(h)), or even qualifies as "prior art" under 35 USC 102 with respect to this invention unless specifically designated by Applicant(s) as such.

In accordance with 37 CFR 1.97(g), the filing of this Information Disclosure Statement shall not be construed to mean that a search has been made or that no other material information, as defined in 37 CFR 1.56, exists.

Attached is PTO Form 1449 listing the patents, publications and other information that may be material to the patentability of one or more claims of the subject application. Copies of all such items are enclosed herewith. Applicant respectfully requests that a copy of Form PTO-1449, as considered and initialed by the Examiner, be returned with the next communication.

With respect to EP O 103 217, Applicant notes that this reference was also cited in the Information Disclosure Statement filed July 5, 2001. However, Applicant inadvertently failed to include a concise statement of the relevance of this reference as required by 37 CFR 1.98(a)(3). In this regard, Applicant notes that U.S. Patent No. 4,715,702 to Dillon, which was also cited in the Information Disclosure Statement filed July 5, 2001, is, according to Applicant's understanding, the U.S. equivalent of EP O 103 207.

This Information Disclosure Statement is believed to be timely in that it is being submitted under 37 CFR § 1.97(b)(3), that is before the mailing of a first Office Action on the merits. Thus, no petition or fee is required. However, if the undersigned representative of Applicant is in error in this regard, then the Examiner is requested to consider this IDS as filed under § 1.97(c) and is further
